ALICE BRIGGS is a business owner, publisher, writer, teacher, and artist. She loves to assist others to achieve their goals, which is the common thread in all she does.

She has an emotional and spiritual healing business helping people address the emotional and spiritual roots of behaviors and physical conditions. Most of her 30+ published titles are in this Christian inner healing/self-help space. She also partners with a mastermind partner of many years in a business class, helping people deal with their “head trash” or blocks so they can succeed in whatever they’re doing.

She is also a fine artist and has worked in mixed media as a painter professionally for more than 25 years. She loves creating artworks that bring peace into a space. She’s published 5 art books to date and has illustrated 5 children’s books.

Through Kingdom Covers, she uses her graphic design and artistic skill set to design covers and interiors for fellow indie authors, and loves to help new authors take their books from manuscript to published. She has coached many new authors across the publishing line, and hopes to see many more succeed in this arena in the future.

She is co-founder and Creative Director of *Indie Author Magazine*, and is involved with Indie Author Tools and the new Author Tech Summit. She recently added two more publications under her publisher’s umbrella: *Lubbock’s Home and Family Magazine*, and *Weddings by Wendy Rose*.

You can see all of her books on Amazon, or where ever books are sold, and the one site to rule them all is: aaltd.co
